

MR. WATTSON

ORIGINAL

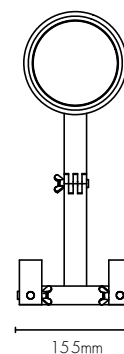

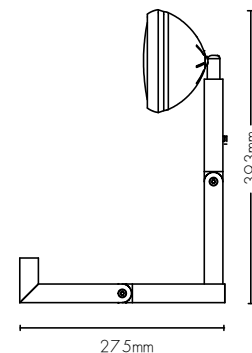

Mr. Wattson™ is inspired by children's action figures and the colours and shapes of vintage car parts from the 1930s. The light source is a long-lasting changeable G9 LED running on only 2,5 watts.

The lamp's adjustable body and long legs ensure that it can be placed wherever you want it. Perhaps with a straight back on the windowsill or with a more relaxed posture on your bookshelf?

Mr. Wattson is made of ash wood and high-grade metal alloy in 7 different colours. He's both classic and urban and brings his own bright personality with him wherever he goes.
